

Introduction to Macroeconomics 220:103:01

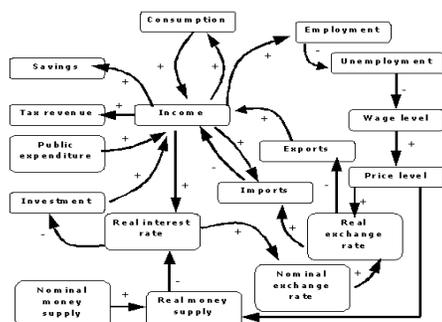

7/2017 subject to revision

IMPORTANT

- We will be using a free, online textbook (see below)
- We will be using clickers – they are required
- Class attendance is REQUIRED and unexcused absences from class may be grounds for failing the course.

What's the Fed going to do next? (**monetary policy**) What's Brexit (**international macroeconomics**)? And why? And how will this affect you? Was the **great recession** avoidable? What did economists and politicians do wrong, and right? (**fiscal and monetary policy**) Could it have become a **depression**? What caused it? What did we do about it? Why does it matter (**macroeconomic theory and policy**)? Is U.S. **Economic Growth** slowing? And how will this affect you? What's going on in Europe? And how does it matter to us? What's **GDP** and why is it "gross"? What causes **unemployment** and what policies can reduce it (want a job?), and how low can it go? What's **inflation**, and what harm does it cause? And how about **deflation**? How do **interest rates** matter? How fast will our economy and our wealth **grow**? What is **money** and what role does it have in the economy? Why do **banks** matter? What's the **Fed** and what is it doing now? What does China have to do with the U.S. economy? What does China's **exchange rate** have to do with anything? What's bad about **government deficits** and the national **debt**? The **trade deficit**? How does **international trade** impact our economy? What are the roles of the **stock market** and the **financial system** and how can you make (and lose) a fortune in investing (**personal investing**)?

Macroeconomics deals with the determinants of a **nation's aggregate (total) output and income**, the determinants of the average **level of prices and their rate of change** (inflation/deflation), and the determinants of **growth** in an economy. While an **Introductory Microeconomics** course is **highly recommended**, it is not required if one is prepared to quickly catch-up (but *if you have a choice, take Micro first*). Above all, this is intended to be an **interesting, important, useful, and demanding** course dealing with issues you will certainly face in your **private, public, and professional lives** and which will provide you with **useful and usable skills and insights** (and some **cookies**).

Instructional Goals: Consistent with the *Learning Goals of the Economics Department*, students will develop and demonstrate economic literacy, numeracy, citizenship and scholarship in the area of introductory macroeconomics. Specifically, students who satisfactorily complete Introduction to Macroeconomics will understand and be able to articulate the core principles, concepts and theories of modern macroeconomics (the basic aggregate demand and supply model, the multiplier, the Keynesian, Classical and Monetarist models, the open-economy macro model, neo-classical and new growth theory, etc). Students will begin to develop the ability to interpret and analyze economic data such as aggregate output, inflation, unemployment and growth rates. Through lectures, discussions, assignments and readings students will become familiar with the theoretical framework of macroeconomics and learn to apply it to the analysis of macroeconomic policy issues. Students will also get smarter and more interesting.

To take this course you **MUST**:

- Have high-speed access to the Internet often. (dorm, library, home, Starbucks)
- Have a sense of humor (laugh at my jokes)
- Make regular use of Sakai (Rutgers' online course management system)
- Carefully read the **required textbook** weekly (free, online)
- Buy or obtain an **iClicker** brand clicker (**any model, new or used**) and bring it to class regularly (the same clicker can be used by **ONE** student in multiple classes but **NOT** by multiple students) – starting with the first class.
- **Regularly attend class, - UNEXCUSED ABSENCES MAY BE GROUNDS FOR FAILING THE COURSE, and will lower your grade.**
- **Participate** in class and online chat rooms
- **Complete** graded weekly, on-line **assignments** which, along with reading, will take 4-6 hours per week.

- Use Quizlet (or other) **flash cards**
- **LOOK UP REQUIRED MATERIAL NOT CONTAINED IN THE TEXTBOOK.**

You must *NOT*

- use a computer in class. If there is a special reason for needing to use one, please see me.
- use cell phones in class – not for calls, text messaging, or photographs/video.
- come late or leave class early.
- **talk** in class – it imposes external costs on others.
- **Record audio or video** in class without explicit written permission
- ***If any of these are difficult for you, it will be necessary to take the course with a different instructor***

MEETING TIMES, OFFICE HOURS, SAKAI, WEB ACCESS, EMAIL

The class meets MTh 10:20am-11:40am, Beck Auditorium Livingston and online 24/7.

My Economics Department web page is: <http://econweb.rutgers.edu/sheflin/> - it has a lot of links, some of which you will hopefully find useful. However, virtually all of the course material will **ONLY** be available through **Sakai** <http://sakai.rutgers.edu> . You are responsible for checking announcements, grades, and the chat rooms frequently.

My **office hours** will be Tuesdays 1:30-3:30 in New Jersey Hall 403 CAC and other times by appointment. There will be a signup tool in Sakai to reserve a time slot or you can drop in but you might have to wait. Note that office hours are to discuss personal issues, the meaning of life, and jazz. Class questions should be asked in class or posted on the chat rooms first.

EMAIL (NO) Any and all course related questions should be posted on the appropriate CHAT ROOM in sakai. Email is **ONLY** for very personal issues (health, family problems, etc) and I will generally not respond to email that can and should be posted on the chat room.

HOW THE COURSE WILL WORK

- **Before** each week's classes, you will read/print the **ASSIGNMENT** for the **next** week posted under **RESOURCES** in Sakai, and generally available by the Wednesday of the week before it is due (i.e. assignment 2 will be posted by Wednesday of week 1). Late assignments not accepted.
- You will do the textbook and supplementary readings, problems, and online graded multiple choice homework and other assigned items contained in the **assignment BEFORE** the Monday class. Note that the **Supplementary readings** are important, the reading may differ from that shown on the syllabus, and it is **UP TO YOU TO FIND ANSWERS TO QUESTIONS** and problems, even if they are not in the textbook (hint: **google**). It is also **ESSENTIAL** to **POST QUESTIONS** on the chat rooms and/or ask in class.
- You will make and use some form of **FLASHCARDS** to help you learn key definitions, concepts, analyses.
- You will interact with me and with each other through online **CHAT ROOMS** for homework and other questions you have trouble with, as well as for “when, how, what” questions and other course related issues (email is **ONLY** for very personal issues)
- In class, we'll deal with current events, applications, homework review for tough questions, all in question format with clickers – there will be little or no lecturing.
- We will be playing **A STOCK INVESTING GAME**, and using various simulators and data bases in the course,
- There will be **EXTRA CREDIT PROJECTS** available
- There will be 4 short clicker quizzes during the semester, and no midterm or other exams (except the final). The majority of your grade will depend on a **COMPREHENSIVE, CUMULATIVE MULTIPLE CHOICE FINAL EXAM** at the end of the course covering all the material, encouraging to learn the material for the **long-run**. (ignore Keynes here)
- You will be regularly reading print and/or online **NEWS SOURCES** and you are responsible for knowing what is going on in the world (economic and other).

GRADING

Grades in the course will be based on **weighted total points** from

- **graded, online, multiple choice homework** due before each class (**10%**), lowest several dropped
- four **in-class clicker quizzes** (**15%**), lowest one dropped
- **class participation and testing with clickers** every class (**15%**) with the lowest X days dropped (X will be revealed late in the course, 0 is a good number to aim for)

- a **COMPREHENSIVE MULTIPLE CHOICE FINAL EXAM** reflecting what you know at the end of the course (**60%**) – you will hate the heavy weight on the final – but it is intended to encourage you to study and learn the material for the long-run, not cram, and to give students who ‘get-it’ late in the course a chance (and an incentive) to do well.
- There will also be **EXTRA CREDIT PROJECTS** worth up to 2%. And lesser extra credit for documented attendance at the Learning Resource Center(s) or special seminars and talks.

Note that students must earn a grade of C or better in this course to major or minor in economics, and an A or better to run for President.

ATTENDANCE is **required** and reflected in clicker points from each class. Except for documented absence due to participation in official University events or **significant** illness or personal problems, there will be **no excused absences**. However, **I will drop the lowest several clicker day(s)**, the lowest several homework assignments, and the lowest clicker quiz. Please do not see me for single missed classes as up to X are automatically not counted (where X is a low number).

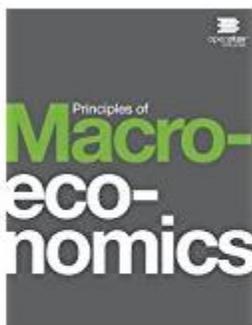

If you miss **MORE** than two classes because of illness or a family emergency – **SEE ME (do not email)**, before or after class and please bring documentation about the cause.

Note that **I DO NOT LOOK AT OR USE THE UNIVERSITY ABSENCE REPORTING WEBSITE**. This is the one I ignore <https://sims.rutgers.edu/ssra/> Don't waste time with it for this course -

SUBSTANTIAL UNEXCUSED ABSENCES MAY BE GROUNDS FOR FAILING THE COURSE AND WILL LOWER ONE'S COURSE GRADE BY A LETTER GRADE (B TO C, or D to F for example).

TEXTBOOK AND READINGS ****F R E E**** **PRINCIPLES OF MACROECONOMICS** by Timothy Taylor (sort of), through *Openstax College* (Rice University <http://openstaxcollege.org/>)

Available online and as a downloadable, printable pdf and a print copy which can be purchased if you wish through Amazon and sold by OpenStax. (NOT required). It is not clear if the price is \$26.50 or \$33.50

Principles of Macroeconomics 2014

by OpenStax

\$25.60 (22 used & new offers)

or maybe \$33.50

There will be **weekly supplementary reading** assigned (see each weeks assignment posted in RESOURCES) and students are expected to keep on top of economics and macroeconomic news through regular reading of online news sources (google news, Bloomberg, etc) and/or **New York Times, Wall Street Journal** and/or online sources (note the Journal has student subscriptions at about \$1 per week: wsj.com/studentoffer (Note, totally optional; no benefit to me - I've paid for my own subscription)

iCLICKER We will be using the **iClicker brand** response system (**clickers**). which sell for about \$45 new, with many available used for less. You **MUST** have your own clicker – you can share one with a friend IN A DIFFERENT CLASS but I would not advise this. You can buy a used one. You must bring your clicker to every class and must not bring someone else's – there will be frequent checks for clickers that are in class when their owners' are not.

There are 3 models of iclicker – the original one, an iclicker+ replacement for it and the iClicker2, more expensive, small screen, alphameric entry, - **any will work for this course.**

DO NOT ORDER YOUR CLICKERS FROM A DISTANT SOURCE (online etc) – YOU WILL NEED THEM FROM THE VERY FIRST CLASS. And watch out for a seller charging you and then ordering them for future delivery.

FLASHCARDS are very helpful for most students to truly learn the material. We will likely use Quizlet, a free, online (and mobile) flashcard system

ACADEMIC INTEGRITY

Do not cheat, the penalties are severe, it is wrong, and in the long-run, you will not benefit. Do not:

- have someone click your clicker when you are not in class,
- talk about clicked questions unless you are told to do so,
- copy someone else's homework or have someone help with yours,
- use the text or other sources when doing the homework

Using someone else's words or thoughts without citing them is also cheating.

LEARNING CENTERS provide tutoring. There will be (small) extra credit given for every time you go. <http://rlc.rutgers.edu/contact.shtml> More information in class.

AUDIO-VISUAL RECORDING (sound, still photos, video) IN CLASS is NOT permitted without explicit written authorization of the instructor and notification of other students in the class, except where notification from the Office of Disability Services is provided.

SCHEDULE

Note that we are covering the material in a somewhat different order than the text. We will cover all of it by the end of the course. **There are additional required readings shown on each week's ASSIGNMENT which will be posted in Sakai.** The syllabus shows the week, the chapters and sections in the textbook to be read **before** that week, and the weeks when we will talk about advising issues and investment issues. **YOU MUST LOOK AT EACH WEEK'S ASSIGNMENT IN SAKAI (click on RESOURCES) TO SEE ADDITIONAL READINGS, AND CHANGES (the reading shown below is not complete).** In addition to the reading and other activities shown in the Assignment in Sakai each week, there will be **HOMEWORK** in the form of online multiple choice questions done in Sakai, due **BY OR BEFORE** the class in which they are shown. They will be available in Sakai by Wednesday of the week **before** they are due, Late assignments will not be accepted (except in cases of illness, etc).

Week Beginning:	Assignment & hw due	Topic and notes	Textbook Chapters (addit'l readings will be in the posted ASSIGNMENTS in Sakai)
1 9/7 (Thurs)	1	Economic and Macroeconomic Issues— <i>one class this week. First and only class this week on Thurs 9/7</i>	1, 2 (just sections – see assignment for which)
2 9/11	2	Demand, Supply and the Meaning of (Economic) Life <i>last day to drop 9/12 last day to add 9/13</i>	3, Appendix A (parts, just skim)
3 9/18	3	The Short-Run Keynesian Aggregate Supply and Demand Model <i>advise 1 invest 0 – overview</i>	11, 12 (skip the section on The Phillips Curve– we will come back to it)
4 9/25	4	National Income Accounting – GDP <i>invest 1-stock</i> Clicker Quiz 1	1 (just page 17 – circular flow), 6
5 10/2	5	Fiscal Policy and the Short-Run Keynesian Model <i>resume Cfuncest advise2 resume</i>	17.4, 17.5, 17.6, appendix B –just the WORK IT OUT MODULES
6 10/9	6	Money, Banking and the Financial System <i>invest 2A-more stock</i>	14, 15.2 ONLY section 15.2 of chapter 15)
7 10/16	7	The Fed & Monetary Policy in the Keynesian SR Model Clicker Quiz 2	15
8 10/23	8	Price Indices, Inflation and the Short-Run Phillips Curve <i>Invest 2B-yet more on stock, etc</i>	9, 12 (just the <i>Phillips curve</i> section 12.3)
9 10/30	9	The Long-Run/Classical Model <i>Presidential game Last day to drop with a W is 10/30 advising 3 - careers</i>	11 (just the <i>Keynes Law and Say's Law</i> section), 13
10 11/6	10	Unemployment and Wages <i>invest 3-mutual funds advise 3</i> Clicker Quiz 3	8
11 11/13	11	Economic Growth & Present Value	7, 19.2 (just the section on <i>Improving Countries Standard of Living</i>)
12 11/20,11/21	12	International (Open Economy) Macroeconomics – trade, open-economy macro, xrates in the sr <i>invest 4-bonds</i> We meet both Monday and Tuesday – Tuesday follows Thursday Schedule Thanksgiving	See assignment for alternative reading, just sections 20.1, 20.4, 21.2, 21.5
13 11/27	13	International Macroeconomics continued bop, ppp, international finance Clicker quiz 4	10.1-10.3, 10.5, 16, 18.4
14 12/4	14	Macroeconomic Issues and Controversies – Government Deficits, Stabilization, Evolution of Macroeconomics <i>invest 5 – financial derivatives</i>	17.1-17.3,17.7, 17.4-17.6 (this is review), 11.6, 12.4, 13.3
15 12/11	15	Financial Crisis/Great Recession of 2007-9 <i>single class LAST CLASS</i>	
		FINAL EXAM Tuesday December 19 noon (do not make travel plans for this date)
