

Call for Papers

Conference in Honor of Halbert L. White

May 6-7, 2011

The submission of papers is invited for a conference to honor Halbert L. White on the occasion of his 60th birthday. We are delighted to organize this special conference honoring Hal White's lifelong achievements and accomplishments in the field of econometrics. The conference will be held on the beautiful campus of the University of California, San Diego during May 6-7, 2011, and will be attended by co authors, current and former students, and leaders in the field of econometrics. Contributions in all areas of theoretical and applied econometrics are welcome. There will be invited speakers as well as a poster session. The organizers: *Valentina Corradi* (Warwick University – v.corradi@warwick.ac.uk), *Shinichi Sakata* (University of British Columbia – ssakata@interchange.ubc.ca), and *Norman R. Swanson* (Rutgers University – nswanson@econ.rutgers.edu) encourage prospective contributors submit papers via the “submissions” link at the following website:

<http://economics.ucsd.edu/events/conferences/2011HalWhite/index.html>

Notification of decisions on submissions is expected by December 31, 2010. Submissions will be considered for both regular and poster sessions on an equal basis. Please note that there are few slots available for talks, given our extensive list of keynote speakers. As such, please also note that allocation of a paper to a poster session should not in any way be interpreted as a comment on its quality. Updated information about the conference, registration, and accommodation will be available at the above webpage. There will unfortunately be no travel or lodging subsidy available for any participants of the conference.
